## **Preface – 2022 Facility Costs Update**

- 0.0 This update has been produced solely to reflect the changes in facility costs since the 2005 Ready Reckoner was produced.
- 0.1 This document only applies to the former Aylesbury Vale area of Buckinghamshire.
- 0.2 Other than changes set out in this preamble, in all other respects the Ready Reckoner is identical as the 2005 version. It therefore refers to the former Aylesbury Vale District Council (since April 2020 is now Buckinghamshire Council), the 2004 Aylesbury Vale District Local Plan (AVDLP) and a 2004 Supplementary Planning Guidance (SPG) for Sport & Leisure Facilities document.
- 0.3 The 2004 (AVDLP) was replaced by the Vale of Aylesbury Local Plan in September 2021. The 2004 Supplementary Planning Guidance document ceased to be used at that time.
- 0.4 The Council is working on a new Local Plan for Buckinghamshire, this will be supported by either a new ready reckoner or other alternative mechanism, until then the Ready Reckoner should still be used in the former Aylesbury Vale area:
- to calculate Section 106 contributions
  - as an indicative guide to on or off-site provision (Table 2)
  - to define geographical level (Appendix 1)
  - to define facilities required (Appendix 1)
- 0.5 The Ready Reckoner informs decision making on planning applications and appeals on the matters of open space, sport, leisure and cultural facilities. The Ready Reckoner will continue to be used as an interim until it is replaced either for the Aylesbury Vale area alone or for all of Buckinghamshire.
- 0.6 Where facilities have already been provided, the Ready Reckoner off site contributions can still be justified, for example:
- to modernise, update, improve or replace existing facilities
  - adapt to climate change or
  - the demands of an outdoor customer experience
  - or to meet accessibility needs.
- 0.7 Other changes in using this Ready Reckoner are as follows:
- 0.8 Para. 1.2 – The average household size is now 2.5 people per household (rounded, using the 2011 Census) (see VALP para 1.48)
- 0.9 Para. 2.2 - the population figure to be used is the 2011 Census - 174,100 (see VALP para 1.31).

- 0.10 Para. 2.2 - the Sport & Leisure Facility Costs 2004 (Appendix 2) Total Cost figure of £171,356,562 has been index-linked using the BCIS All-In Index from quarter 3 2005 to quarter 3 2022, rising by 67.87% (£116,299,698.64) to £287,656,260.63. This means the Model cost per head of leisure & cultural provision for population of Aylesbury Vale (add the word 'area') is now £1,652.
- 0.11 Para. 2.3 - the Council no longer requires a contribution to a shortfall in provision as this cannot be justified for Section 106 contributions under the CIL Regulations.
- Delete original para 2.3 and para 2.4.
  - In para 2.5 change figure to £1,652.
  - Table 1 (para 3.2) has been updated to reflect the new figures and approach but the worked examples in the Ready Reckoner need to be updated with the new figures and approach.
- 0.12 For the avoidance of doubt, the 2017 Open Space Sports and Recreation Needs Assessment has not informed this update, nor has a new draft Playing Pitch Strategy for the Aylesbury Vale area (2022) or Buckinghamshire Built (Indoor) Facilities Study. Updates to national planning policy and changes to regulations and statutory requirements have not been reflected in making the cost update.
- 0.13 The contact details for queries on this document and where it can be obtained are updated to:

Change website address to: <https://www.buckinghamshire.gov.uk/planning-and-building-control/planning-policy/>

- 0.14 The changes mentioned above are all shown in this document as ~~strike through~~ for deleted text and **bold** for new text.

## **1 Introduction**

- 1.1 This ‘ready reckoner’ provides the link between the Leisure Facilities Audit and the planning policy context set out in national planning policy, the Aylesbury Vale District Local Plan, and the Supplementary Planning Guidance for Sport & Leisure Facilities that accompanies the Plan. It identifies which facilities a development needs to provide on-site and provides the basis for the calculation of the contribution towards the provision of off-site community and leisure facilities to be made by each new development.
- 1.2 Under these proposals, each new property will be required to pay a set figure based upon the property size (defined by number of bedrooms). This method has been chosen as it can be related to the number of occupants within a property, based upon the current average household size for Aylesbury Vale (~~2.56~~**2.5**, according to the results of the ~~2004~~ **2011** Census). Figures will be regularly reviewed including taking account of inflation and changes in costs of grounds maintenance.

### ***Planning Policy Context***

- 1.3 The planning policy context is defined through:
- PPG17: Planning for Open Space, Sport and Recreation
  - Aylesbury Vale District Local Plan (AVDLP)
  - Supplementary Planning Guidance (SPG): Sport And Leisure Facilities
- 1.4 Overall, the planning policy context requires development to contribute to community and leisure facilities to address any existing deficiency and to meet the needs arising from the new development.
- 1.5 The District Council’s standards for the provision of community and leisure facilities will be applied to all applications (of four properties or above) for new residential development which result in a net gain in residential units. This includes conversions, changes of use, renewal of expired planning permission (at the time of submission), flats, bedsits, sheltered housing, affordable housing and agricultural workers’ dwellings.
- 1.6 Replacement dwellings, extensions, nursing homes and residential annexes will not be subject to the policy.

### ***Leisure Facilities Audit***

- 1.7 The initial Leisure Facilities Audit was undertaken between October 2003 and June 2004. It identified the optimum leisure and cultural provision for Aylesbury Vale, and identified areas of shortfall on a community basis.

1.8 PPG17 (2002): Planning for Open Space, Sport and Recreation identifies the need for local authorities to undertake a robust and comprehensive assessment of community needs. The Aylesbury Vale audit met the needs of this guidance by undertaking both a qualitative and quantitative assessment incorporating:

- Community & Village Halls
- Parks & Open Spaces
- Playgrounds
- Playing Pitches and Pavilions
- Other outdoor sports facilities
- Indoor sports centres and swimming pools
- Arts and entertainment facilities
- Facilities for young people

1.9 This assessment built upon the findings of the Local Cultural Strategy and included wide ranging community involvement including questionnaires to clubs and organisations assessing current and future needs, site visits to community and village halls and qualitative assessments of parks, open spaces and equipped play facilities. The assessment also incorporated the findings of the Sport England Facilities Demand Estimator and meetings with governing bodies and neighbouring local authorities.

1.10 From the audit, a matrix of recommended sport and leisure facility provision for different sizes of settlement has been produced (see Appendix 1). The matrix establishes the Aylesbury Vale sport and leisure standards which supersede the NPFA standards set out in the Aylesbury Vale District Local Plan (AVDLP). The audit is intended as a living document to reflect ongoing changes in provision, but will be fully updated every two years in response to the significant levels of housing growth planned for the district. The ready reckoner will be updated appropriately.

## **2 The Aylesbury Vale Model**

2.1 The Aylesbury Vale Model provides the basis for the calculation of the contribution towards the provision of both on and off-site community and leisure facilities to be made by each new development with a residential component. The contribution to be made is calculated in two parts:

- 1) Provision to accommodate the need generated by the new development
- 2) Provision to address the existing shortfall in the District

These are each addressed in more detail below.

### ***1) Provision to accommodate the need generated by the new development***

2.2 For the new development to meet its own needs, it must provide community and leisure facilities in the same ratio as in the rest of the District, assuming that all need was met. This ratio is calculated by dividing the total cost of the leisure and cultural provision needed if the District was to be ‘at full strength’

(according to the Leisure Facilities Audit) by the total population. This gives the per capita cost for the new development of providing these facilities.

Total cost of model leisure & cultural provision in Aylesbury Vale (see Appendix 2)	£171,356,562 <b>£287,656,260.63</b>
Population of Aylesbury Vale 2022 (Based upon 2011 Census Figures)	165,748 <b>174,100</b>
Model cost per head of leisure & cultural provision for population of Aylesbury Vale <b>area</b>	£1,033 <b>£1,652</b>

## 2) *Provision to address the existing shortfall in the District*

2.3 ~~The District's leisure and cultural provision is not 'at full strength' however: the Audit identified deficiencies. National planning policy, set out in PPG17, provides local authorities with the opportunity to address these shortfalls in provision. The second part of the ready reckoner calculation identifies the sum required from each development to contribute to addressing the shortfall. The Council no longer require a contribution to a shortfall in provision as this cannot be justified for section 106 contributions under the CIL Regulations.~~

2.4 ~~The Leisure Facilities Audit identified the model provision for the District as costing £171,356,562. The actual provision is only £111,861,164, however, leaving a shortfall of £59,495,408. For new development to meet its own proportion of the deficit, this would entail an additional amount of £342 per new resident.~~

~~Total cost 1) + 2) = £1,375~~

2.5 Thus the cost of the leisure and cultural facilities required by each new resident of the Vale is ~~£1,375~~ **£1,652**. This provision will be met either as a financial contribution or, on larger schemes, by some provision on-site and a financial contribution towards off-site facilities (see Stage 3 below).

## 3 The Ready Reckoner Calculations

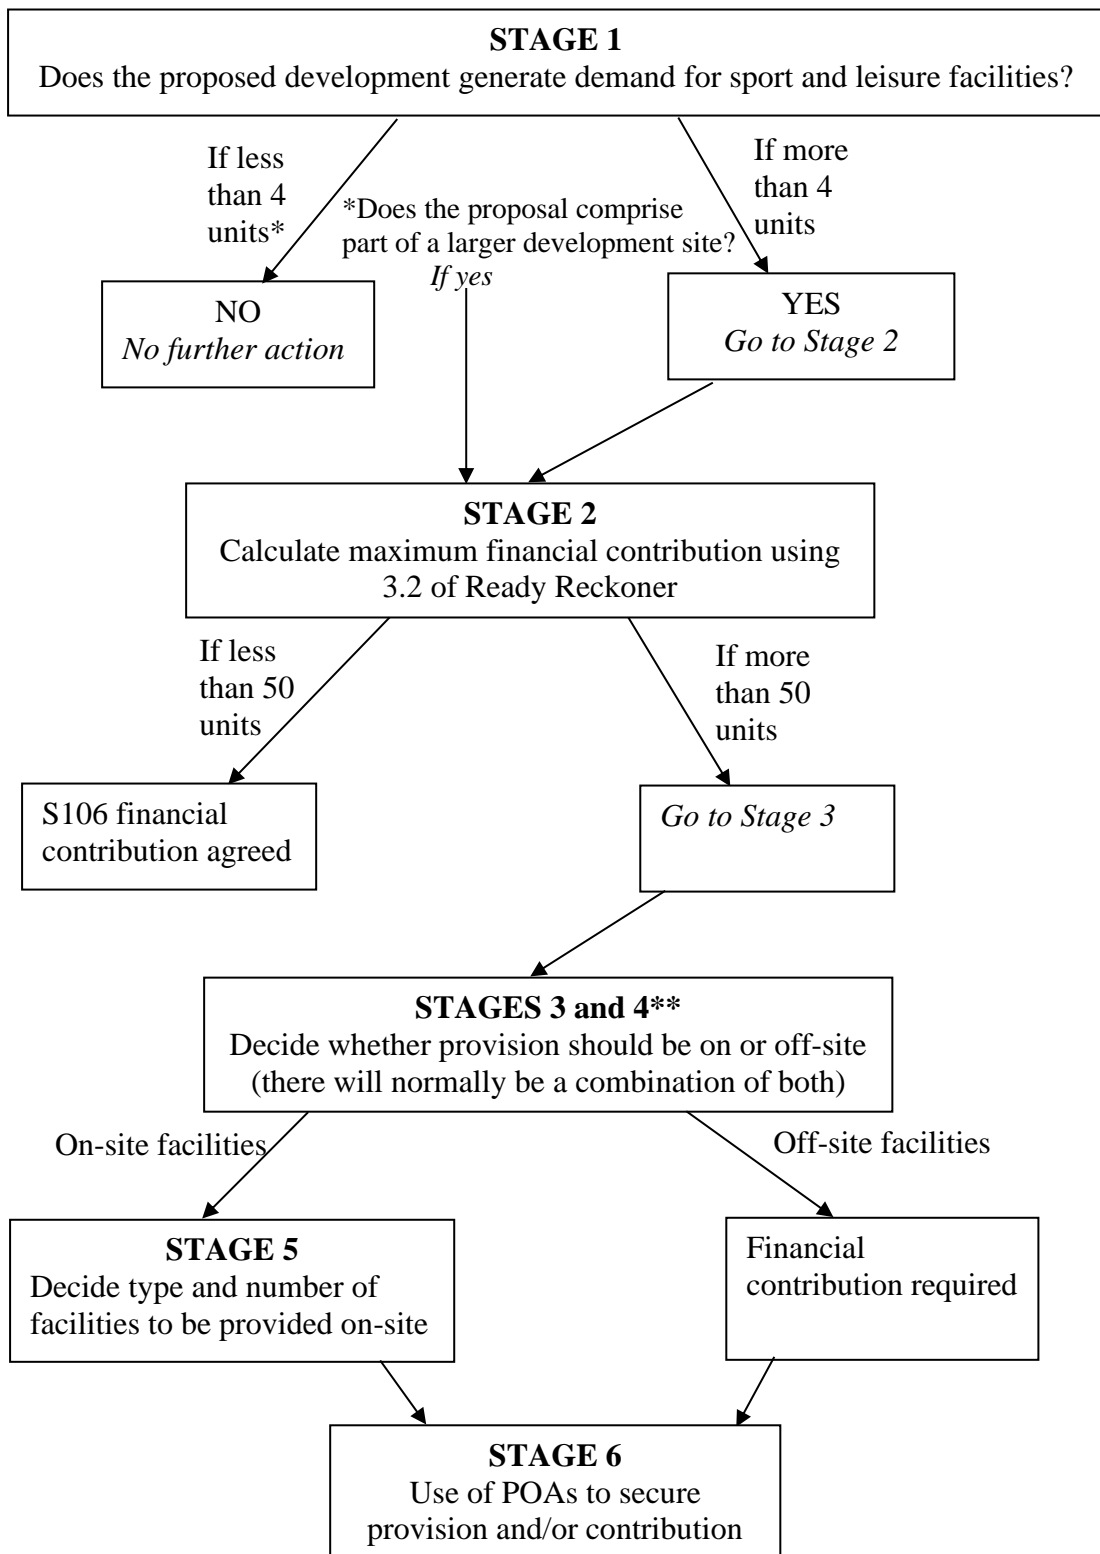

3.1 The overall contribution to be required from new developments will therefore include both the model cost per head and a contribution to meet the current shortfall in provision (both of these figures will be reviewed on a regular basis to take into account ongoing development and improvements in facilities). This has been summarised in the following 'ready reckoner', in order to assist the planning process, and provide clarity and certainty for developers.

- 3.2 Based upon the current average household size for Aylesbury Vale of ~~2.56~~**2.5**, and the profile of the current housing stock, the following overall contributions will be sought for each of the property sizes listed:

**Table 1 – Financial contribution for each property size**

	<b>1) Need</b>	+	<b>2) Shortfall</b>		
Contribution per new resident	£1,033 <b>£1,652</b>	+	£342	=	<del>£1,375</del> <b>£1,652</b>
<b>Property Size</b>	<b>Contribution</b>				
1 bedroom	1x resident				<del>£1,375</del> <b>£1,652</b>
2 bedroom	1.8 residents				<del>£2,475</del> <b>£2,974</b>
3 bedroom	2.4 residents				<del>£3,300</del> <b>£3,965</b>
4+ bedrooms	3.5 residents				<del>£4,812</del> <b>£5,782</b>

3.3 Below is a flow chart that illustrates the stages in determining provision. These stages are identified in the Sport and Leisure SPG.

\*\* NB – Exceptionally, some or all of this provision could be provided off-site through commuted payments (see paragraph 3.12). This is identified as Stage 4 in the Sport and Leisure SPG.

3.4 The stages in determining the requirement of sport and leisure facilities are described below:

### **STAGE 1**

#### **How to determine if a development has a sport and leisure facility requirement**

##### Rationale

3.5 The Council acknowledges that all new dwellings will generate demand for sport and leisure facilities, but it has been necessary to set a threshold of 4 or more dwellings as it is uneconomic to demand contributions that fall below a certain monetary value.

##### How it works

3.6 All developments of 4 or more residential units (including conversions) will create a requirement for provision of sport and leisure facilities. For developments of under 4 units there is no requirement. Where a development proposal comprises only part of a larger site that could be developed, and which in totality is likely to create 4 or more dwellings, the stage 2 calculation must be carried out.

### **STAGE 2**

#### **How to calculate sport and leisure facility requirement**

##### Rationale

3.7 The per-dwelling cost calculations set out in paragraph 3.2 on page 4 include the following two elements:

- 1) Provision to accommodate the need generated by the new development;
- 2) Provision to address the existing shortfall in the District.

3.8 The per-dwelling cost is based on the findings of the comprehensive Audit that assessed the leisure and cultural provision in the District in qualitative and quantitative terms. The total cost of leisure and cultural provision needed if the District was to be at 'full strength' was divided by the total population. This gives the per capita cost for new development to provide these facilities. The shortfall contribution is calculated by dividing the total cost of making up the shortfall by the projected population increase (4.86%) to 2011.

##### How it works

3.9 The figures in Table 1 (on page 4) should be used to calculate the maximum financial contribution required. For this calculation to be carried out, information relating to the number of dwellings and the mix of dwelling types should be provided with every application. Where information on the mix of dwelling types is not provided, the assumption will be that each dwelling has 4

bedrooms, meaning that the maximum possible contribution will be calculated.

- 3.10 The total number of each size of dwelling proposed is then multiplied by the per-dwelling financial contribution set out in Table 1.

#### Example

- 3.11 A proposal for 50 dwellings that comprises 5 one-bedroom dwellings; 10 two-bedroom dwellings; 25 three-bedroom dwellings; and 10 four-bedroom dwellings is received. The following calculation is carried out to give the total possible financial contribution:

5 x 1 bedroom dwellings (£1,375 each) = £6,875  
10 x 2 bedroom dwellings (£2,475 each) = £24,750  
25 x 3 bedroom dwellings (£3,300 each) = £82,500  
10 x 4 bedroom dwellings (£4,812 each) = £48,120  
TOTAL = £162,24

### **STAGES 3 and 4**

#### **How to decide if sport and leisure facility provision should be on or off-site**

##### Rationale

- 3.12 Table 2 (an extract from the SPG) below provides an indicative guide to the leisure facilities which would normally be required on-site for different sizes of development. Where facilities are provided on-site by the developer, a proportionate reduction is made to the overall contribution requirement as calculated in stage 2. Exceptionally, specific local conditions may mean that an additional financial contribution may be sought instead of on-site provision, for example if the new development is being located adjacent to an existing equipped play area.

##### How it works

- 3.13 Using Table 2 (on page 8), identify the facilities which should be provided on-site. This should normally only be applied for developments in excess of 49 dwellings; smaller developments should provide a cash contribution only for off-site facilities unless exceptional local circumstances such as a major physical barrier such as a main road or railway line prevent ease of access to local community facilities. Exceptionally, liaison with Leisure Services may conclude there would significant local advantages for the on-site requirement to be provided off-site, for example where a development is located adjacent to an existing park. The Sport and Leisure SPG facilitates such an exception in **Stage 4** of the process.

**Table 2 – Indicative Guide to On or Off-Site Provision**

Number of dwellings proposed	4-15	16-49	50-99	100-199	200-299	>300*
Amenity Green Space	✓	✓	✓	✓	✓	✓
Public Open Space	£	£	✓	✓	✓	✓
Equipped Play Facilities	£	£	✓	✓	✓	✓
Youth Shelter/Meeting Area	£	£	£	✓	✓	✓
Skateboard Facility	£	£	£	£	£	✓
MUGA (multi-use games area)	£	£	£	£	£	✓
Floodlit STP (synthetic turf pitch)	£	£	£	£	£	£
Playing Pitches	£	£	£	£	£	✓
Changing Pavilion	£	£	£	£	£	✓
Community Centre	£	£	£	£	£	✓
Dry Sports Centre	£	£	£	£	£	£
Swimming Pool	£	£	£	£	£	£
Heritage and Interpretation	£	£	£	✓	✓	✓
Entertainment Complex	£	£	£	£	£	£
Arts Centre	£	£	£	£	£	£
✓	<b>On-site provision will normally be required</b>					
£	<b>Contribution towards off-site provision will normally be required</b>					

\* Developments of 300+ dwellings would normally be the subject of a development brief which would specify the detailed sport and leisure requirements.

- 3.14 Table 3 below provides a guide to the likely value of on-site and off-site provision for most developments, based on reducing contributions to reflect what is provided by the development on-site.

**Table 3 – Value of on and off-off site contributions**

Development Size	On-Site Contribution	Off-Site Contribution	Off-Site Contribution per Resident	Reduction
50-99 Dwellings	14.1%	85.9%	£1181	£194
100-299 Dwellings	14.6%	85.4%	£1174	£201
300+ Dwellings	51.2%	48.8%	£671	£704

Example A – All Off-Site Provision

- 3.15 A proposal for 30 properties is received comprising 20 x 3 bedroom units and 10 x 4 bedroom units. As this development is for less than 50 units a financial contribution only is required.  $(20 \times £3,300 + 10 \times £4,812) = £114,120$  off-site contribution. No on-site provision will be required.

### Example B – Some On-Site Provision

- 3.16 A proposal for 80 properties is received comprising 40 x 3 bedroom units and 40 x 4 bedroom units. For a development of this size the public open space and equipped play facilities would normally be provided on-site whilst a financial contribution for all other facilities should be provided off-site. The overall financial contribution for this development would be  $(40 \times \text{£}3,300 + 40 \times \text{£}4,812) = \text{£}324,480$  less 14.1% for the on-site provision =  $\text{£}278,728$ .

## **STAGE 5**

### **Determining the type and number of facilities to be provided on-site**

#### Rationale

- 3.17 Where on-site provision is required, it is necessary to relate this requirement to each individual development proposal.

#### How it works

- 3.18 Where the Stage 3 assessment has been carried out as set out above, and it has been determined that certain facilities should be provided on-site, it will be necessary to consult the following information (note that requirements for public open space are set out in the section below):

- Table 2 to determine what facilities would normally be required on or off-site;
- Appendix 1 to find standards for the individual cluster; *and*
- Technical Specification / Good Practice Guidance document to determine the exact number, size and specification of each required facility. This should take place in liaison with Leisure Services (contact details are at the end of this document).

### **Public Open Space Requirement**

- 3.19 The District Council's open space standard of 2.47 ha per 1000 population, which equates to 24.7m<sup>2</sup> per resident, is based on advice in PPG17 (Planning for Open Space, Sport and Recreation), Circular 1/97, and the findings of the Leisure Audit (AVDC, 2004).
- 3.20 The population of any development should be assessed by applying the guidelines provided in Table 1 of this document:-

**Table 4 – Public Open Space Requirement per dwelling**

Property Size	Number of Residents	Multiply by 24.7		M <sup>2</sup> per dwelling
1 bedroom	1	x 24.7	=	24.7m <sup>2</sup>
2 bedroom	1.8	x 24.7	=	44.46m <sup>2</sup>
3 bedroom	2.4	x 24.7	=	59.28m <sup>2</sup>
4+ bedrooms	3.5	x 24.7	=	86.45m <sup>2</sup>

Example

- 3.21 20 x 1 bedroom properties = 20 residents = 494m<sup>2</sup>  
 15 x 2 bedroom properties = 27 residents = 667m<sup>2</sup>  
 15 x 3 bedroom properties = 36 residents = 890m<sup>2</sup>  
 5 x 4 bedroom properties = 17.5 residents = 432m<sup>2</sup>

Total 100.5 residents x 24.7m<sup>2</sup> = 2,482 m<sup>2</sup> = 0.25 ha

**STAGE 6**

**Use of planning obligation agreements (POAs) to secure sport/leisure facility contributions and/or provision, retention and maintenance**

- 3.22 A fundamental purpose of AVDLP is to secure implementation of the Plan’s proposals in a co-ordinated and comprehensive manner. As such, in order to secure the sport and leisure facility requirement as a direct result of the new development, the developer will be required to enter into a planning obligation agreement. The Council will also make a charge to cover costs relating to administration and monitoring for developer contributions.
- 3.23 Where a developer is to provide facilities on or off-site and maintain them for an agreed period of time, the legal agreement will include provision for a performance bond covering the estimated costs.
- 3.24 Developers are required to make provision for the maintenance of sport and leisure facilities they supply and retain on or off-site. More details regarding performance bonds and maintenance and adoption are contained in paragraphs 5.18 and 5.19 of the Sport and Leisure SPG. Maintenance costs are built into the figures given in paragraph 3.2 of this document.
- 3.25 Developer contributions received in each cluster will be pooled to maximise their local community benefit and best meet local deficiencies in provision. They will be spent within that cluster, or contribute to district-wide facilities.

### **Other companion documents include:**

#### **Audit**

Aylesbury Vale District Cultural Facilities Audit and Needs Assessment

- Identifies current levels of provision
- Establishes local standards
- Identifies deficiencies
- Identifies clusters and hierarchy of provision

#### **Technical Specification / Good Practice Guidance**

- Sets out requirements in technical specification terms
- Covers facilities likely to be constructed by developers themselves

## MATRIX OF SPORT, LEISURE AND CULTURAL FACILITY PROVISION STANDARDS IN AYLESBURY VALE

Geographical Level	Public Open Space	Equipped Play Facilities	Youth Shelter / Meeting Area	Skateboard Facility	MUGA	Floodlit STP	Playing Pitches	Changing Pavilion	Community Centre	Dry Sports Centre	Swimming Pool	Heritage and Interpretation	Entertainment Complex	Arts Centre
Hamlet (under 100)	0	0	0	0	0	0	0	0	0	0	0	0	0	0
Rural Parish 1 (100-300)	PO1	EP1	0	0	0	0	0	0	0	0	0	0	0	0
Rural Parish 2 (300-1,000)	PO2	EP2	YS1	0	0	0	PP1	CH1	CC1	0	0	HI1	0	0
Rural Parish 3 (1,000-3,000)	PO3	EP3	YS1	SB1	MU1	0	PP2	CH1	CC2	0	0	HI1	0	0
Cluster	0	0	0	SB1	MU1	0	PP3	CH1	CC3a and b	0	0	HI1	0	0
Secondary Settlement (Buckingham, Winslow, Wendover, Haddenham)	PO4	EP4	YS2	SB1	MU2	ST1	PP4	CH1	CC3a and b	SC1	SW1	HI2	EC1	AC1
Primary Settlement Community Area	PO4	EP4	YS2	SB1	MU2	0	PP4	CH1	CC2	SC1	SW1	0	EC1	0
Primary Settlement	PO5	0	YS3	SB2	0	ST2	PP4	CH1	0	SC1	SW1	HI3	EC2	AC1

0 No provision required

PO1 Central public open space approximately 0.25 - 1 ha. if an equipped play area is provided

PO2 Central public open space of approximately 2 - 4 ha. providing natural and amenity areas with 50% non sports space.

PO3 Main open space of approximately 4 to 8 ha providing amenity and natural areas with 50% non sports space. Local open space, min. 0.25 hectares, in areas of housing more than 300-400m away from main open space

PO4 Central public open space of approximately 10-20 hectares. Local open space of around 2 ha providing amenity and natural land within 400m of all homes. Immediately local open space of 0.25 - 1 ha in housing within 300m of homes.

PO5 Informal boundary areas providing for informal recreation, local play needs and buffering. Green linear routes within the built areas.

EP1 LEAP level equipped play provision on central open space, where appropriate to local circumstances

EP2 NEAP level equipped play provision on central main open space

EP3	NEAP level equipped play provision on central main open space. LEAP level provision in areas of housing more than 300m-400m from main open space
EP4	NEAP+ level equipped play provision in main park. NEAP provision in each local park. Further equipped play provision where appropriate to local circumstances
YS1	Tubular frame youth shelter manufactured to British Safety Standards one in Main Open Space
YS2	Tubular frame youth shelter & minimum of 9m x 9m hard surface, basketball/football goal unit in each Local Park
YS3	Tubular frame youth shelter & minimum court set up of 20m x 20m with 2 basketball & football goal unit one in each District Park
SB1	Skateboard facility with ramps and pipes as defined through consultation with local young people minimum 2 quarter pipes
SB2	Floodlit skateboard facility with ramps and pipes as defined through consultation with local young people minimum equipment levels to include fun box, quarter pipe, half pipe & grind rail
MU1	One Type 4 floodlit MUGA (unless local circumstances dictate other type) to accommodate five a side football in central main open space to Sport England and SAPCA recommended standards <i>A Guide to the Design, Specification</i> .
MU2	One MUGA as defined in MU1 in main park and each local park, providing location and demographics permit
ST1	Half Full Size Football/Hockey floodlit STP to guidance provided in A Guide to the Design, Specification and Construction of Multi Use Games Areas
ST2	<i>Minimum</i> one Full Size STP per 60,000 population, accessible and available for public use as specified in guidance quoted in ST1
PP1	One adult full size pitch - sport according to identified need at the time
PP2	One adult and one youth pitch with space for mini soccer/rugby according to sports need
PP3	Minimum as PP2 with floodlit grass training area
PP4	Provision as identified in Aylesbury Vale Playing Pitch Strategy
CH1	Pavilion/Clubhouse to standards for relevant pitch provision as set out in Sport England Design Guidance Note <i>Pavilions and Clubhouses</i>
CC1	Small community centre with main hall<100m2 with foyer, small meeting room, adequate storage, kitchen, toilet facilities & parking
CC2	Medium sized community centre <250m2, as CC1 with addition of meeting room(s), and stage
