

Materials on the highway terms and conditions

Materials must be removed at the end of the stated period and the site properly cleared and restored to our satisfaction.

A clear passage for pedestrians must be continuously maintained on footpaths.

Stacked materials must be kept tidy, must not to be more that one pallet high and the limit to the area to be used is as follows:

- Carriageway 2m x 5m, with channels kept clear of materials and debris to allow the passage of rainwater.
- All stacked materials must be fenced off and adequately lit at night, from sunset to sunrise, with amber warning lights.
- Fire hydrants must not be wholly or partially covered without the prior written consent of the Fire and Rescue Service.

You must indemnify and keep indemnified Buckinghamshire Council from, and against all actions, proceedings, cost, charges, damages, expenses, stacking or use of building materials on the highway.

Any damage to the highway must be repaired immediately at your expense.

The time limit of permits is four weeks from the date of issue, after this, a new permit must be applied for in writing to us at least 48 hours before the licence expires..

You will be required to provide appropriate traffic signs to warn highway users of the materials. The signs arrangement of signs must comply with Chapter 8 of the Traffic Signs Manual. Can you link to this?

Public Liability Insurance giving minimum cover of £5million is required. However, we reserve the right to increase this amount if it is considered that the site location requires a higher degree of cover. You will be notified if this is the case and proof of increased cover will be required before the licence is granted.

If you mix or deposit any mortar or cement or any other substance likely to stick to the surface of the highway, or which enters drains or sewers connected with the highway and is likely to solidify, you are guilty of an offence and liable to a fine of up to £200
